Matt,

We will be heading down the night before (March 31) and staying in Monticello (hour away from Crossett). It will be a full day (April 1) with a WWTP tour, Ouachita River near Mossy Lake and then some potential reference sites. I'm sure will get a look at Coffee Creek as well. Looks like you guys could get here in about 6 hours if you drive. We'll have plenty of room and you can go to Crossett with us Friday morning. They will have a lunch for us (told them we could go dutch on the lunch). We haven't got a hotel pinned down yet. Let us know if anyone else is coming and we can make the reservations. Should be a fun day.

Sarah

Sarah,

Phil just talked to me about the upcoming site visit. As it stands, I should be able to make the trip. I suggested that Laura Hunt may also want to come along, if possible. I'll be in touch with you to cover logistics and verify who will be attending. Thanks for continuing to include us on these matters.

Best regards,

Matt

Subject: Invitation: Site Visit to GP-Crossett

Phil and Russell,

We have coordinated a site visit to GP-Crossett on Friday, April 1 and GP has asked if any of you or any of your staff would be interested in coming. As it stands now the visit would include WWTP for the facility, Ouachita River near Mossy Lake and 2-3 potential reference streams for the UAA. It would be a very full day and we are heading down the night before. GP needs to know how many folks are coming by the end of the day. I know its short notice but just got it scheduled with GP and we wanted to let you know of the invite. If you can make it please forward the names to me. Thanks.
